

## **AMEREQUIP 2023-2024 ROUTING GUIDE**

### **ATTN Vendors:**

**Amerequip has a couple new carriers on this year's routing guide. Please double check any documentation you have and update it with your latest approved carrier(s).**

**If your state/zip falls within the new Schneider category, please email Ashley Czoschke at [aczoschke@amerequip.com](mailto:aczoschke@amerequip.com) with a shipping department contact. Schneider will be assisting with account setup and hosting demo days for their TMS system. Until your account is set up and running, continue to use 2022's carrier.**

**This routing guide is for LTL shipments only. Please check your carrier-specific constraints. If your shipment is above any of the carrier-specific constraints, or the following, please contact Ashley Czoschke and Sara Teaster at [aczoschke@amerequip.com](mailto:aczoschke@amerequip.com) and [steaster@amerequip.com](mailto:steaster@amerequip.com) for assistance:**

- **Linear footage above 17 feet**
- **Skid/pallet size above 8 feet**
- **Gross weight above 19,999 pounds**

**ALL skids/pallets being shipped to Amerequip must weigh 2000 pounds or less. Skids/pallets with a 36" length are preferred.**

**If you have any questions, please contact Ashley Czoschke at [aczoschke@amerequip.com](mailto:aczoschke@amerequip.com).**
